1. Add audio node in your xml file to enable audio function

```
<Node type="Audio" name="Audio1">
          <Configuration>
               <WaveOutputMode sampleRate="44100" bitsPerSample="16"
channels="2" />
          </Configuration>
</Node>
```

   Ex: “Program Files¥OpenNI¥Data¥ SamplesConfig.xml”

2. Use OpenNI sample code(NiAudioSample) to verify function
3. Launch DOS prompt with administrator mode.
4. In “Program Files\OpenNI\Samples\Bin\Release”, please run command as “NiAudioSample.exe  play”
   You can test the mic in Xtion Pro live.
5. In “Program Files\OpenNI\Samples\Bin\Release”, please run command as “NiAudioSample.exe  record”
